What does the fund invest in?

The Portfolio's investment objective is to achieve a steady rate of return and long-term capital appreciation by making tactical investments primarily in a diverse mix of exchange-traded funds ("ETFs") that are fixed-income funds and equity funds. Up to 100% of the Portfolio's investments in equity securities and fixed-income securities can be in foreign securities.

The charts below give you a snapshot of the fund's investments on March 31, 2026. The fund's investments will change over time.

International Equity	13.4%
Canadian Equity	13.3%
Cash, Money Market and Other Net Assets	2.6%
Other	0.3%

How risky is it?

The value of the fund can go down as well as up. You could lose money. One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

NBI has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. This rating can change over time. A fund with a low risk rating can still lose money.

Low	**Low to Medium**	Medium	Medium to High	High

For more information about the risk rating and specific risks that can affect the fund's returns, see the Risk section of the fund's simplified prospectus.

No guarantees

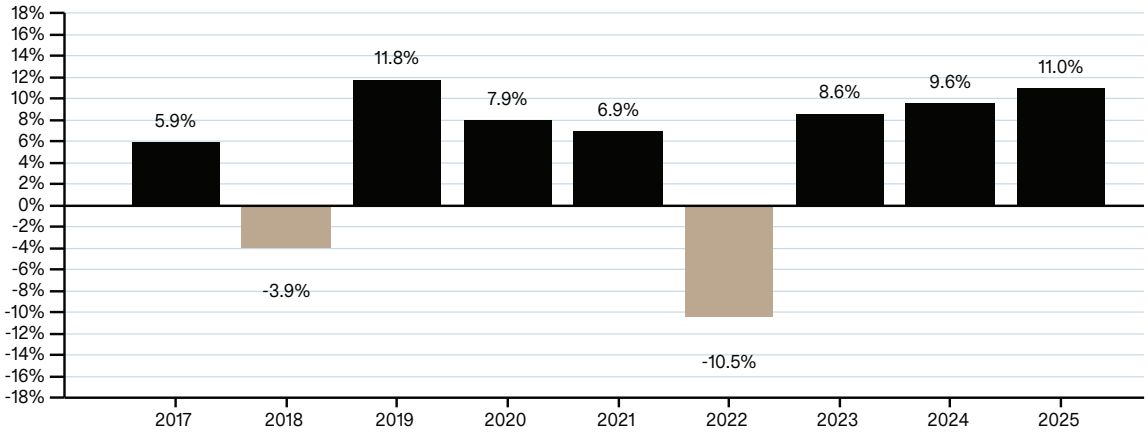
Like most mutual funds, this fund doesn't have any guarantees. You may not get back the money you invest.

How has the fund performed?

This section tells you how Series F units of the fund have performed over the past 9 years. Returns are after expenses have been deducted. These expenses reduce the fund's returns.

Year-by-year returns

This chart shows how Series F units of the fund performed in each of the past 9 years. The fund dropped in value in 2 of the 9 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.



Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 9 years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested $1,000 at the beginning of the period
Best Return	11.0%	June 30, 2020	Your investment would rise to $1,110.
Worst return	-10.2%	March 31, 2020	Your investment would drop to $898.

Average return

The annual compounded return of Series F units of the fund was 5.19% since its inception. If you had invested $1,000 in this series since inception, your investment would now be worth $1,665.

Who is this fund for?

Investors who:

- are looking to invest for the medium or long term;
- are looking for an investment solution that allows them to make tactical investments in a wide range of securities in order to create a fully diversified portfolio.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan (RRSP) or a Tax-Free Savings Account (TFSA).

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund. The fees and expenses – including any commissions – can vary among series of the fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales Charges

You pay your representative's firm an annual fee based on the asset value of your account instead of paying commissions or fees on each purchase.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the fund's returns. As of December 31, 2025, the fund's expenses were 0.67% of its value. This equals $6.70 for every $1,000 invested.

	Annual rate (as a % of the fund's value)
Management expense ratio (MER) This is the total of the fund's management fee and operating expenses (including fixed rate administration fee). NBI waived some of the fund's expenses. If it had not done so, the MER would have been higher.	0.63%
Trading expense ratio (TER) These are the fund's trading costs.	0.04%
Fund Expenses	**0.67%**

How much does it cost? (cont'd)

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and their firm provide to you.

NBI does not pay any trailing commission to your representative's firm with respect to Series F units.

3. Other fees

You may have to pay other fees when you buy, hold, sell, switch or convert units of the fund.

Fee	What you pay
Short-term trading fee	2% of the value of the units you redeem or switch within 90 days of purchase may be charged by NBI. This fee goes to the fund.
Fee-based account fee	The Series F is only offered to investors who have entered into an agreement to pay fees directly to their representative's firm. These investors pay their representative's firm annual compensation based on the asset value of their account.

What if I change my mind?

Under the securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual fund units within two business days after you receive a simplified prospectus or Fund Facts document; or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact your representative or NBI for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.
