

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE

For the period ended December 31, 2021

Canadian Equity Fund

NBI Canadian Equity Fund (formerly NBI Jarislowsky Fraser Select Canadian Equity Fund)

Notes on forward-looking statements

This report may contain forward-looking statements concerning the Fund, its future performance, its strategies or prospects or about future events or circumstances. Such forward-looking statements include, among others, statements with respect to our beliefs, plans, expectations, estimates and intentions. The use of the expressions "foresee", "intend", "anticipate", "estimate", "assume", "believe" and "expect" and other similar terms and expressions indicate forward-looking statements.

By their very nature, forward-looking statements imply the use of assumptions and necessarily involve inherent risks and uncertainties. Consequently, there is a significant risk that the explicit or implicit forecasts contained in these forward-looking statements might not materialize or that they may not prove to be accurate in the future. A number of factors could cause future results, conditions or events to differ materially from the objectives, expectations, estimates or intentions expressed in such forward-looking statements. Such differences might be caused by several factors, including changes in Canadian and worldwide economic and financial conditions (in particular interest and exchange rates and the prices of other financial instruments), market trends, new regulatory provisions, competition, changes in technology and the potential impact of conflicts and other international events.

The foregoing list of factors is not exhaustive. Before making any investment decision, investors and others relying on our forward-looking statements should carefully consider the foregoing factors and other factors. We caution readers not to rely unduly on these forward-looking statements. We assume no obligation to update forward-looking statements in the light of new information, future events or other circumstances unless applicable legislation so provides.

This annual management report of fund performance contains financial highlights, but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-888-270-3941 or 514-871-2082, by writing to us at National Bank Investments Advisory Service, 500, Place d'Armes, 12th floor, Montreal, Quebec, H2Y 2W3, by visiting our website at www.nbinvestments.ca, by visiting SEDAR's website at www.sedar.com, or by contacting your advisor. You may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Investment Objective and Strategies

The NBI Canadian Equity Fund's investment objective is to achieve long-term capital growth. The Fund invests directly or indirectly in a portfolio comprised mainly of equity securities of large-capitalization Canadian issuers.

The portfolio manager analyzes stocks through a valuation approach of "growth at a reasonable price" with a long-term investment horizon. Based on fundamental analysis, the portfolio manager identifies companies with above average growth prospects and below average risk. Securities held in the portfolio are common and/or preferred shares of large-capitalization companies that are industry leaders, have strong management, a good earnings track record and reasonable financial leverage. The fund may invest up to 49% of its assets in securities of foreign issuers.

Risks

The global investment risk of the Fund remains as described in the simplified prospectus or any amendments thereto and Fund Facts.

Results of Operations

For the twelve-month period ended December 31, 2021, the NBI Canadian Equity Fund's Advisor Series units returned 23.57% compared to 25.09% for the Fund's benchmark, the S&P/TSX Capped Composite Index (CAD). Unlike the benchmark, the Fund's performance is calculated after fees and expenses. Please see the *Past Performance* section for the returns of all of the Fund's series, which may vary mainly because of fees and expenses.

Certain series of the Fund, as applicable, may make distributions at a rate determined by the manager. This rate may change from time to time. If the aggregate amount of distributions in such series exceeds the portion of net income and net realized capital gains allocated to such series, the excess will constitute a return of capital. The manager does not believe that the return of capital distributions made by such series of the Fund have a meaningful impact on the Fund's ability to implement its investment strategy or to fulfill its investment objective.

The Fund's net asset value rose by 570.45% over the period, from \$141.41 million as at December 31, 2020 to \$948.07 million as at December 31, 2021.

The increase stemmed mainly from the merger of the NBI Jarislowsky Fraser Select Canadian Equity Fund with this Fund and market fluctuations.

Reflecting the genuine economic boom that occurred in 2021, Year 2 of the global pandemic produced significant divergence across and within major asset classes.

For instance, equity markets (+18.0% for the MSCI All Country World C\$ in 2021) substantially outperformed traditional bonds (-2.5% for the FTSE Canada Universe), which ended the year in the red – a first since 2013. Within equities, more cyclical sectors such as energy, real estate, and financials were among the top performers – an outcome that benefitted Canadian stocks which posted their best annual total return (+25.1%) since 2009. Even so, U.S. equities (+28.7% in US\$) managed to grab first place, supported by the spectacular resilience of its leading technology stocks, among other things.

Meanwhile, conditions proved more difficult for emerging markets, which, after delivering the best performance of the major regions in 2020, ended 2021 in negative territory (-2.2% in US\$), dampened by heightened regulatory and economic uncertainty in China. On the commodities side, gold prices closed the year slightly down (-4.3%) while oil prices surged (+56%), supported by the strong recovery in global demand. Finally, despite the strength of oil, the Canadian dollar ended the year nearly unchanged next to the Greenback (-0.9%), near its long-term equilibrium value.

In this context, the Fund underperformed its blended benchmark for the period. Positive contributors were stock selection in the Industrial, Consumer Discretionary, Materials and Healthcare sectors.

Conversely, the absence from the Energy sector combined with stock selection and the underweight exposure in the Financial sector detracted.

On an individual basis, Brookfield Asset Management, Uni Select and Nutrien added value while Saputo, Alibaba et Enghouse Systems hindered the Fund's return.

Recent Developments

In the coming year, there are some risks that the portfolio manager is aware of, which could contribute to market volatility. Central banks efforts to normalize interest rates at higher levels could be mishandled. We could also see further progressions in the pandemic. Geopolitical risks have increased, particularly with the NATO allies and Russia regarding Ukraine and its territorial sovereignty. Finally, Chinese property markets remain an area to monitor as overly indebted developers, namely Evergrande, continue to hold largely unsustainable debt loads.

At the end of the year, the Fund was most notably overweight in Industrials and Consumer Discretionary sectors and mostly underweight in the Energy and Financial sectors.

On April 30, 2021, the Fund's independent review committee (the "IRC") was reduced to three members when Yves Julien resigned as IRC member. On May 1, 2021, the Fund's IRC was increased to four members when Paul Béland was appointed as IRC member.

On May 17, 2021, National Bank Investments Inc. ("NBI") announced the results of the proposals voted upon at the special meetings of securityholders of certain NBI Funds held on that day. The proposed fund mergers were part of a series of initiatives that seek to ensure a more streamlined NBI Fund line-up to provide investors with a comprehensive, more clearly defined range of investment products.

Therefore, the NBI Canadian Equity Fund merged with the NBI Jarislowsky Fraser Select Canadian Equity Fund on or about May 21, 2021. On the same date, the Fund was renamed NBI Canadian Equity Fund. To facilitate the merger, the Series O of the Fund was made available for new purchases on March 23, 2021, the Investor Series of the Fund was launched on May 5, 2021 while the Advisor-2 Series and Series F-2 of the Fund were launched on May 13, 2021. The Advisor-2 Series and Series F-2 are generally not available for new purchases.

During the meetings, securityholders of the NBI Jarislowsky Fraser Select Income Fund also approved a change to the way certain operating expenses are charged to the fund. These operating expenses were therefore replaced by fixed-rate administration fees, which NBI began paying on or about May 19, 2021.

Related Party Transactions

National Bank of Canada ("the Bank") and its affiliated companies' roles and responsibilities related to the Fund are as follows:

Fund Manager

The Fund is managed by National Bank Investments Inc. ("NBI"), which is a wholly-owned subsidiary of the Bank. Therefore, NBI provides or ensures the provision of all general management and administrative services required by the Fund's current operations, including investment consulting, the arrangement of brokerage contracts for the purchase and sale of the investment portfolio, bookkeeping and other administrative services required by the Fund.

The Manager pays the operating expenses of the Fund other than its "Fund costs" (defined below) (the "variable operating expenses"), in exchange for the Fund's payment to the Manager of annual fixed-rate administration fees with respect to each series of the Fund.

The administration fees are equal to a specified percentage of the net asset value of each series of the Fund, calculated and paid in the same manner as the Fund's management fees. The variable operating expenses payable by the Manager include, but are not limited to: transfer agency and recordkeeping costs; custodial costs; accounting and valuation fees; audit fees and legal fees; costs of preparing and distributing financial reports, simplified prospectuses, annual information forms, Fund Facts, continuous disclosure material and other securityholder communications; and costs of trustee services relating to registered tax plans, as applicable.

In addition to administration fees, the Fund shall also pay certain Fund costs, namely: taxes (including, but not limited to, GST/HST and income taxes); costs of compliance with any changes to existing governmental or regulatory requirements introduced after August 1, 2013; costs of compliance with any new governmental or regulatory requirements, including any new fees introduced after August 1, 2013; interest and borrowing costs; costs related to external services that were not commonly charged in the Canadian mutual fund industry as at August 1, 2013; Independent Review Committee costs, including compensation paid to IRC members, travel expenses, insurance premiums and costs associated with their continuing education; and variable operating expenses incurred outside of the normal course of business of the Fund.

The Manager may, from time to time and at its sole discretion, decide to absorb a portion of a series' management fees, administration fees or Fund costs.

As described under the heading *Management Fees*, the Fund pays annual management fees to NBII as consideration for its services.

Distribution and Dealer Compensation

NBII acts as principal distributor for the Fund. In this capacity, NBII buys, sells and swaps securities through Bank branches and the National Bank Investments Advisory Service in Canadian provinces and territories, and through external registered representatives. Fund securities are also offered by National Bank Financial Inc. (including its division National Bank Direct Brokerage), CABN Investments (a division of NBII) and other affiliated entities. Brokers may receive, depending on the distributed series, a monthly commission representing a percentage of the average daily value of the securities held by their clients.

Brokerage Fees

The Fund may pay broker's commissions at market rates to a corporation affiliated with NBII. The brokerage fees paid by the Fund for the period are as follows:

	Period ended December 31, 2021
Total brokerage fees	152,102.00
Brokerage fees paid to National Bank Financial	3,737.00

Holdings

As at December 31, 2021, National Bank Investments Inc. held 735.63 Fund securities for a value of \$9,116.93, which represented close to 0.0010% of the net asset value of the Fund at that date. Transactions between National Bank Investments Inc. and the Fund were carried out in the normal course of business and at the Fund's net asset value as at the transaction date.

Independent Review Committee Approvals and Recommendations

The Fund followed the standing instructions of its Independent Review Committee with respect to one or more of the following transactions:

- Purchasing or holding the securities of a related issuer, in particular, those of National Bank of Canada;
- Investing in the securities of an issuer when an entity related to the manager acts as an underwriter for the placement or at any time during the 60-day period after the end of the placement;
- Purchasing or selling securities to another investment fund managed by the manager or a company in the same group;
- Purchasing or selling debt securities on the secondary market, through related brokers that are main brokers in the Canadian debt securities market (in accordance with an exemption received from the Canadian Securities Administrators);
- Entering into foreign exchange transactions (including both spot transactions and forward transactions) with National Bank of Canada.

The manager has implemented policies and procedures to make sure that the conditions applicable to each of the above transactions are met. The applicable standing instructions require that these transactions be carried out in accordance with NBI policies, which specify, in particular, that investment decisions pertaining to these related party transactions must be made free from any influence by an entity related to NBI and without taking into account any consideration relevant to an entity related to NBI. Furthermore, the investment decisions must represent the business judgment of the securities advisor, uninfluenced by considerations other than the best interest of the Fund and must achieve a fair and reasonable result for the Fund.

Registered Plan Trust Services

NTC receives a fixed amount per registered account for services provided as trustee for registered plans.

Administrative and Operating Services

The provision of certain services was delegated by the Fund manager, NBII, to National Bank Trust Inc. ("NBT"), a wholly-owned indirect subsidiary of the Bank. These include accounting, reporting and portfolio valuation services. The fees incurred for these services are paid to NBT by the Fund manager.

Management Fees

The Fund pays annual management fees to the Fund manager for its management services. The fees are calculated based on a percentage of the Fund's daily net asset value before applicable taxes and are paid on a monthly basis. A portion of the management fees paid by the Fund covers maximum annual trailer fees and sales commissions paid to brokers. The remainder of the management fees primarily covers investment management and general administration services. The breakdown of major services provided in consideration of the management fees, expressed as an approximate percentage of the management fees is as follows:

Series	Management Fees	Distribution	Others [†]
Investor Series	1.75%	57.14%	42.86%
Advisor Series and Series T5*			
Front-end load	1.75%	57.14%	42.86%
Back-end load - 1 to 6 years	1.75%	28.57%	71.43%
Back-end load - 7 years and more	1.75%	57.14%	42.86%
Low load - 1 to 3 years	1.75%	28.57%	71.43%
Low load - 4 years and more	1.75%	57.14%	42.86%
Advisor-2 Series*			
Front-end load	1.70%	58.82%	41.18%
Back-end load - 1 to 6 years	1.70%	29.41%	70.59%
Back-end load - 7 years and more	1.70%	58.82%	41.18%
Low load - 1 to 3 years	1.70%	29.41%	70.59%
Low load - 4 years and more	1.70%	58.82%	41.18%
Series E	0.75%	-	100.00%
Series F and Series F5	0.75%	-	100.00%
Series O	N/A**	—	100.00%
Series F-2	0.70%	-	100.00%

^(†) Includes all costs related to management, investment advisory services, general administration and profit.

^(*) Excluding sales commissions paid on the Advisor and Advisor-2 Series with deferred and low sales charge options, and paid on Series T5 with the low sales charge option, which are not included in the management fees.

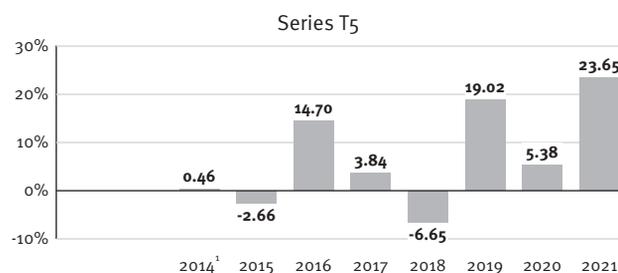

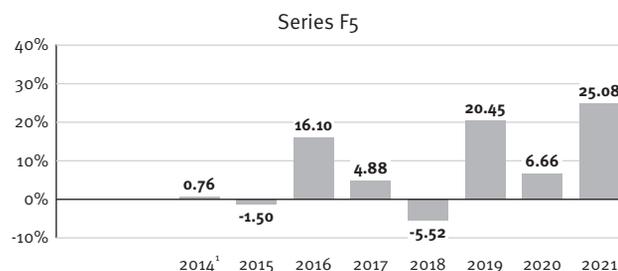

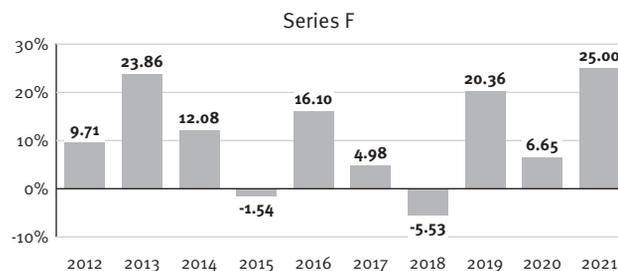

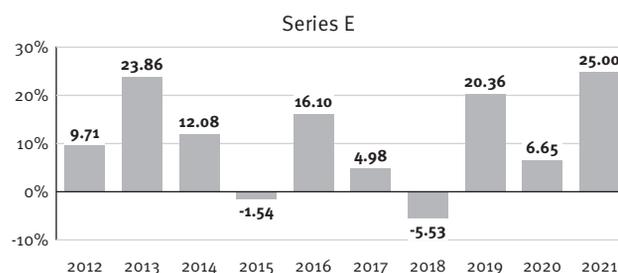

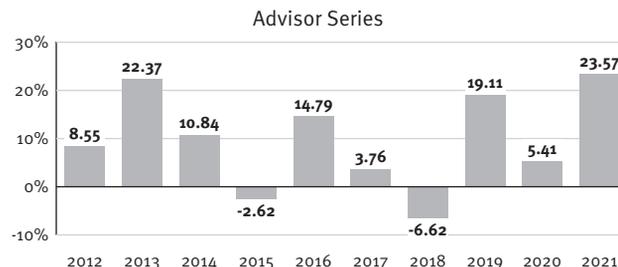

^(**) There are no management fees paid by the Fund with respect to the Series O. Instead, Series O securityholders pay a negotiated administration fee directly to National Bank Investments.

Past Performance

The performance of each series of the Fund presented below are calculated as of December 31 of each year. They assume that all distributions made in the periods shown were reinvested in additional securities and does not take into account sales, redemption charges, distributions, or optional charges that would have reduced returns. Past performance of a series of the Fund does not necessarily indicate how it will perform in the future.

Annual Returns

The bar charts indicate the performance for each the Fund's series in existence greater than one year during the years shown, and illustrate how the performance has changed from year to year. They show, in percentage terms, how much an investment made on January 1 (or made commencing from the start of the series) would have grown or decreased by December 31 of that year, in the case of the Annual management report of fund performance, or by June 30, in the case of the Interim management report of fund performance.

⁽¹⁾ Returns for the period of September 30, 2014 (commencement of operations) to December 31, 2014.

Annual Compounded Performance

The following table shows the Fund's annual compound returns for each series in existence greater than one year and for each of the periods ended on December 31, 2021, compared with the following benchmark:

S&P/TSX Capped Composite Index (CAD)

- ⁽¹⁾ This information is derived from the Fund's Annual Audited Financial Statements. The net assets per unit presented in the financial statements might differ from the net asset value calculated for fund pricing purposes. The differences are explained in the notes to the financial statements.
- ⁽²⁾ Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase or decrease from operations is based on the average number of units outstanding over the accounting period.
- ⁽³⁾ Distributions were paid in cash or reinvested in additional units of the Fund, or both.
- ⁽⁴⁾ The net assets are calculated in accordance with IFRS.
- ⁽⁵⁾ This information is provided as at the last day of the accounting period shown.
- ⁽⁶⁾ Management expense ratio is based on total expenses including sales taxes for the accounting period indicated (excluding commission, other portfolio transaction costs and withholding taxes) and is expressed as an annualized percentage of daily average net value during the accounting period.
- ⁽⁷⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the accounting period. The trading expense ratio includes, if necessary, the trading expenses from its underlying funds, as described in Article 15.2 of Regulation 81-106.
- ⁽⁸⁾ The Fund's portfolio turnover rate indicates how actively the Fund portfolio's manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the accounting period. The higher a Fund's portfolio turnover rate in an accounting period, the greater the trading costs payable by the Fund in the accounting period, and the greater the chance of an investor receiving taxable capital gains in the accounting period. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.

Summary of Investment Portfolio

As of December 31, 2021
