

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE

For the period ended December 31, 2024

Diversified Fund

NBI Global Balanced Growth Fund

Notes on forward-looking statements

This report may contain forward-looking statements concerning the Fund, its future performance, its strategies or prospects or about future events or circumstances. Such forward-looking statements include, among others, statements with respect to our beliefs, plans, expectations, estimates and intentions. The use of the expressions "foresee", "intend", "anticipate", "estimate", "assume", "believe" and "expect" and other similar terms and expressions indicate forward-looking statements.

By their very nature, forward-looking statements imply the use of assumptions and necessarily involve inherent risks and uncertainties. Consequently, there is a significant risk that the explicit or implicit forecasts contained in these forward-looking statements might not materialize or that they may not prove to be accurate in the future. A number of factors could cause future results, conditions or events to differ materially from the objectives, expectations, estimates or intentions expressed in such forward-looking statements. Such differences might be caused by several factors, including changes in Canadian and worldwide economic and financial conditions (in particular interest and exchange rates and the prices of other financial instruments), market trends, new regulatory provisions, competition, changes in technology and the potential impact of conflicts and other international events.

The foregoing list of factors is not exhaustive. Before making any investment decision, investors and others relying on our forward-looking statements should carefully consider the foregoing factors and other factors. We caution readers not to rely unduly on these forward-looking statements. We assume no obligation to update forward-looking statements in the light of new information, future events or other circumstances unless applicable legislation so provides.

This annual management report of fund performance contains financial highlights, but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-888-270-3941 or 514-871-2082, by writing to us at National Bank Investments Advisory Service, 800 Saint-Jacques Street, Transit 44331, Montreal, Quebec, H3C 1A3, by visiting our website at www.nbinvestments.ca, by visiting SEDAR+'s website at www.sedarplus.ca, or by contacting your advisor. You may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Investment Objective and Strategies

The NBI Global Balanced Growth Fund's investment objective is to achieve long-term capital appreciation and provide some income. The Fund invests, directly or through investments in securities of other mutual funds (that may include exchange-traded funds ("ETFs")), in a portfolio composed mainly of global fixed-income securities and global equity securities.

The portfolio manager applies a tactical allocation valuation process in which asset allocation and the choice of Underlying Funds are subject to frequent changes depending on economic and market conditions.

Risks

The global investment risk of the Fund remains as described in the simplified prospectus or any amendments thereto and Fund Facts.

Results of Operations

For the twelve-month period ended December 31, 2024, the NBI Global Balanced Growth Fund's Advisor Series units returned 13.92% compared to 22.17% for the Fund's blended benchmark. The broad-based indices, the MSCI World Index (CAD) and the Bloomberg Global Aggregate Index (CAD Hedged), returned 29.43% and 2.41% respectively. Unlike the indices, the Fund's performance is calculated after fees and expenses. Please see the *Past Performance* section for the returns of all of the Fund's series, which may vary mainly because of fees and expenses.

Certain series of the Fund, as applicable, may make distributions at a rate determined by the manager. This rate may change from time to time. If the aggregate amount of distributions in such series exceeds the portion of net income and net realized capital gains allocated to such series, the excess will constitute a return of capital. The manager does not believe that the return of capital distributions made by such series of the Fund have a meaningful impact on the Fund's ability to implement its investment strategy or to fulfill its investment objective.

The Fund's net asset value rose by 778.22% over the period, from \$1.83 million as at December 31, 2023 to \$16.10 million as at December 31, 2024.

The increase stemmed mainly from unit purchases by investors in the Fund.

At the beginning of 2024, a climate of cautious optimism had set in. Indeed, while 2023 had just ended with a spectacular rebound, central banks were still faced with the daunting challenge of starting to lower interest rates when inflation was not yet back on target, but several previously flawless recession indicators had already been triggered. Ultimately, optimism prevailed, with inflation continuing to slow, central banks cutting rates and the US economy continuing to exceed all expectations, stock markets enjoyed a spectacular year in 2024. Bonds, for their part, had a lacklustre year, posting a performance similar to that of cash.

More specifically, global equities (+18.0% for the MSCI ACWI in US\$) outperformed Canadian bonds (+4.1% for the Canadian fixed-income universe) for the second year running. Market leadership was firmly in North America, with the S&P 500 (+25.0% in US\$) and S&P/TSX (+21.7%) posting annual returns well above their historical averages, while emerging markets and the EAFE region posted much more modest gains of 8.1% and 4.3% (in US\$).

On the fixed-income side, the risk-on environment favoured Canadian corporate bonds (+7.1%) and high-yield U.S. securities (+8.2% in US\$). Conversely, government securities posted more modest annual returns in Canada (+3.4%), but especially in the U.S. (+0.5% for the ICE BofA U.S. Treasuries index).

Lastly, the US dollar appreciated strongly (+7.1% for the DXY index) during the year, the greenback being buoyed by the relative outperformance of the U.S. economy and threats of tariffs from the incoming Trump administration.

In this context, the Fund underperformed its benchmark.

The NBI Global Equity Fund underperformed its benchmark, the MSCI World, mainly due to stock selection in Financials and Consumer Discretionary. The NBI Unconstrained Fixed Income Fund also underperformed its benchmark, the Bloomberg Global Aggregate Bond (CAD hedged), due to its underweight in high-yield bonds and expensive hedging fees.

Recent Developments

No significant changes were carried out in the Fund during the period.

The Fund is overexposed to credit and has a shorter duration than the index. The Fund is also underweight the Energy sector in favour of Industrials.

For 2025, the manager believes that the most likely scenario implies that a soft landing will be confirmed in the first half of the year. While this should finally turn the page on four years of major economic disruption linked to the pandemic, investors are nonetheless faced with high valuations, a weakened economy and heightened political uncertainty with Donald Trump's return to the White House considerably muddying the waters.

Related Party Transactions

National Bank of Canada ("the Bank") and its affiliated companies' roles and responsibilities related to the Fund are as follows:

Trustee, Custodian, and Registrar

Natcan Trust Company ("NTC"), an indirect wholly-owned subsidiary of the Bank, is the Fund's trustee. In this capacity, it is the legal owner of the Fund's investments.

NTC acts as registrar for the Fund's securities and the names of securityholders. NTC also acts as the Fund's custodian. The fees for NTC's custodial services are based on the standard rates in effect at NTC.

Agent for securities lending transactions

NTC acts as the agent for securities lending transactions acts on behalf of the Fund in administering securities lending transactions entered into by the Fund. NTC is an affiliate of the Manager.

Fund Manager

The Fund is managed by National Bank Investments Inc. ("NBI"), which is an indirect wholly-owned subsidiary of the Bank. Therefore, NBI provides or ensures the provision of all general management and administrative services required by the Fund's current operations, including investment consulting, the arrangement of brokerage contracts for the purchase and sale of the investment portfolio, bookkeeping and other administrative services required by the Fund.

The Manager pays the operating expenses of the Fund other than its "Fund costs" (defined below) (the "variable operating expenses"), in exchange for the Fund's payment to the Manager of annual fixed-rate administration fees with respect to each series of the Fund.

The administration fees are equal to a specified percentage of the net asset value of each series of the Fund, calculated and paid in the same manner as the Fund's management fees. The variable operating expenses payable by the Manager include, but are not limited to: transfer agency and recordkeeping costs; custodial costs; accounting and valuation fees; audit fees and legal fees; costs of preparing and distributing financial reports, simplified prospectuses, annual information forms, Fund Facts, continuous disclosure material and other securityholder communications; and costs of trustee services relating to registered tax plans, as applicable.

In addition to administration fees, the Fund shall also pay certain Fund costs, namely: taxes (including, but not limited to, GST/HST and income taxes); costs of compliance with any changes to existing governmental or regulatory requirements introduced after August 1, 2013; costs of compliance with any new governmental or regulatory requirements, including any new fees introduced after August 1, 2013; interest and borrowing costs; costs related to external services that were not commonly charged in the Canadian mutual fund industry as at August 1, 2013; Independent Review Committee costs, including compensation paid to IRC members, travel expenses, insurance premiums and costs associated with their continuing education; and variable operating expenses incurred outside of the normal course of business of the Fund.

The Manager may, from time to time and at its sole discretion, decide to absorb a portion of a series' management fees, administration fees or Fund costs.

As described under the heading *Management Fees*, the Fund pays annual management fees to NBI as consideration for its services.

Portfolio Manager

The Manager has appointed National Bank Trust Inc. ("NBT"), a direct and indirect wholly-owned subsidiary of the Bank, as the portfolio manager for the Fund. A flat fee is payable annually to NBT for its management services.

Distribution and Dealer Compensation

National Bank Savings and Investments Inc. ("NBSI") acts as principal distributor for the Fund. In this capacity, NBSI buys, sells and swaps securities through external registered representatives. Fund securities are also offered by National Bank Financial Inc. (including its division National Bank Direct Brokerage) and other affiliated entities. Brokers may receive, depending on the distributed series, a monthly commission representing a percentage of the average daily value of the securities held by their clients.

Brokerage Fees

The Fund may pay broker's commissions at market rates to a corporation affiliated with NBI. The brokerage fees paid by the Fund for the period are as follows:

	Period ended December 31, 2024
Total brokerage fees	\$1,529.67
Brokerage fees paid to National Bank Financial	\$1,529.67

Registered Plan Trust Services

NTC receives a fixed amount per registered account for services provided as trustee for registered plans.

Administrative and Operating Services

The provision of certain services was delegated by the Fund Manager, NBI, to National Bank Trust Inc. ("NBT"), a direct and indirect wholly-owned subsidiary of the Bank. These include accounting, reporting and portfolio valuation services. The fees incurred for these services are paid to NBT by the Fund manager.

Management Fees

The Fund pays annual management fees to the Fund manager for its management services. As the Fund invests in underlying funds, the fees and expenses payable in connection with the management of the underlying funds are in addition to those payable by the Fund. However, the Fund manager makes sure that the Fund does not pay any management (or operating) fees that, to a reasonable person, would duplicate a fee payable by the underlying fund for the same service.

The fees are calculated based on a percentage of the Fund's daily net asset value before applicable taxes and are paid on a monthly basis. Under the *Distribution* heading, expenses include the broker's compensation consisting of the maximum annual trailer fees and sales commissions paid to brokers. Under the *Other* heading, the fees relate mainly to investment management, investment advisory services, general administration and profit. The breakdown of major services provided in consideration of the management fees, expressed as an approximate percentage of the management fees is as follows:

Series	Management Fees	Distribution	Others ¹
Advisor Series and Series T5			
Front-end load	1.75%	57.14%	42.86%
Series F and Series F5	0.75%	—	100.00%

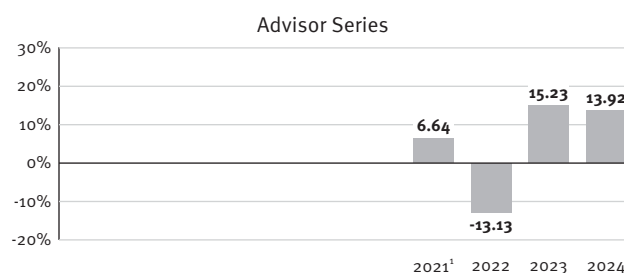

⁽¹⁾ Includes all costs related to management, investment advisory services, general administration and profit.

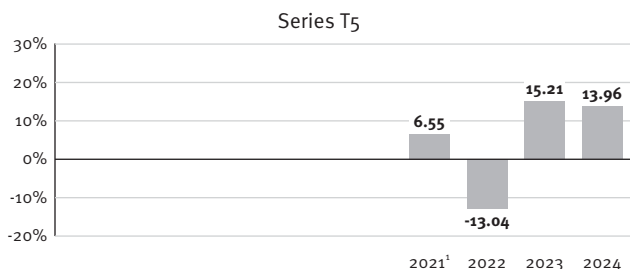

Past Performance

The performance of each series of the Fund is presented below and calculated as at December 31 of each year. It assumes that all distributions made in the periods shown were reinvested in additional securities and does not take into account sales, redemption charges, distributions, or optional charges that would have reduced returns. Past performance of a series of a Fund does not necessarily indicate how it will perform in the future.

Annual Returns

The bar charts indicate the performance for each the Fund's series in existence greater than one year during the years shown, and illustrate how the performance has changed from year to year. They show, in percentage terms, how much an investment made on January 1 (or made commencing from the start of the series) would have grown or decreased by December 31 of that year, in the case of the Annual management report of fund performance, or by June 30, in the case of the Interim management report of fund performance.

¹Returns for the period from June 28, 2021 (commencement of operations) to December 31, 2021.

Annual Compounded Performance

The following table shows the Fund's annual compound returns for each series in existence greater than one year and for each of the periods ended on December 31, 2024, compared with the following benchmarks:

The blended benchmark (the "Benchmark") is composed of:

- MSCI World Index (CAD) (75%)
- Bloomberg Global Aggregate Index (CAD Hedged) (25%)

The broad-based indices are as follows:

- Broad-based index 1: MSCI World Index (CAD)
- Broad-based index 2: Bloomberg Global Aggregate Index (CAD Hedged)

NBI Global Balanced Growth Fund

¹Commencement of operations: June 28, 2021

A discussion of the Fund's relative performance in comparison to the index (or indices) can be found in the *Results of Operations* Section of this report.

Index Descriptions

The **MSCI World Index** is designed to measure global developed market equity performance and is made up of approximately 1,500 companies listed on stock exchanges in the 22 developed countries that make up the MSCI national indexes.

The **Bloomberg Global Aggregate Index**, hedged in CAD, is a market capitalization weighted index which is designed to measure the broad global markets for corporate, government, governmental agency, supranational, mortgage-backed and asset backed fixed income securities.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the accounting periods shown.

- ⁽¹⁾ This information is derived from the Fund's Annual Audited Financial Statements. The net assets per unit presented in the financial statements might differ from the net asset value calculated for fund pricing purposes. The differences are explained in the notes to the financial statements.
- ⁽²⁾ Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase or decrease from operations is based on the average number of units outstanding over the accounting period.
- ⁽³⁾ Distributions were paid in cash or reinvested in additional units of the Fund, or both.
- ⁽⁴⁾ The net assets are calculated in accordance with IFRS.
- ⁽⁵⁾ This information is provided as at the last day of the accounting period shown.
- ⁽⁶⁾ Management expense ratio is based on total expenses including sales taxes for the accounting period indicated (excluding commission, other portfolio transaction costs and withholding taxes) and is expressed as an annualized percentage of daily average net value during the accounting period. The management expense ratio includes, if necessary, the management expenses from its underlying funds, as described in Article 15.2 of Regulation 81-106.
- ⁽⁷⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the accounting period. The trading expense ratio includes, if necessary, the trading expenses from its underlying funds, as described in Article 15.2 of Regulation 81-106.
- ⁽⁸⁾ The Fund's portfolio turnover rate indicates how actively the Fund portfolio's manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the accounting period. The higher a Fund's portfolio turnover rate in an accounting period, the greater the trading costs payable by the Fund in the accounting period, and the greater the chance of an investor receiving taxable capital gains in the accounting period. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.

Summary of Investment Portfolio

As of December 31, 2024

Portfolio Top Holdings

	% of Net Asset Value
NBI Global Equity Fund, Series O	74.7
