

# ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE

For the period ended December 31, 2024

Meritage Global Portfolio

## Meritage Global Moderate Portfolio

### Notes on forward-looking statements

This report may contain forward-looking statements concerning the Portfolio, its future performance, its strategies or prospects or about future events or circumstances. Such forward-looking statements include, among others, statements with respect to our beliefs, plans, expectations, estimates and intentions. The use of the expressions “foresee”, “intend”, “anticipate”, “estimate”, “assume”, “believe” and “expect” and other similar terms and expressions indicate forward-looking statements.

By their very nature, forward-looking statements imply the use of assumptions and necessarily involve inherent risks and uncertainties. Consequently, there is a significant risk that the explicit or implicit forecasts contained in these forward-looking statements might not materialize or that they may not prove to be accurate in the future. A number of factors could cause future results, conditions or events to differ materially from the objectives, expectations, estimates or intentions expressed in such forward-looking statements. Such differences might be caused by several factors, including changes in Canadian and worldwide economic and financial conditions (in particular interest and exchange rates and the prices of other financial instruments), market trends, new regulatory provisions, competition, changes in technology and the potential impact of conflicts and other international events.

The foregoing list of factors is not exhaustive. Before making any investment decision, investors and others relying on our forward-looking statements should carefully consider the foregoing factors and other factors. We caution readers not to rely unduly on these forward-looking statements. We assume no obligation to update forward-looking statements in the light of new information, future events or other circumstances unless applicable legislation so provides.

This annual management report of fund performance contains financial highlights, but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-866-603-3601, by writing to us at [investments@nbc.ca](mailto:investments@nbc.ca), by visiting our website at [www.nbinvestments.ca](http://www.nbinvestments.ca), by visiting SEDAR+’s website at [www.sedarplus.ca](http://www.sedarplus.ca), or by contacting your advisor. You may also contact us using one of these methods to request a copy of the Portfolio’s proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

## Management Discussion of Fund Performance

### Investment Objective and Strategies

The Meritage Global Moderate Portfolio's investment objective is to achieve interest income and long-term capital appreciation by investing primarily in a diverse mix of mutual funds that may include exchange-traded funds ("ETFs") that are global fixed income funds and global equity funds.

The target weighting for each asset class in which the Portfolio invests under normal market conditions is the following: 50%-70% of the net assets in global fixed income securities; and 30%-50% of the net assets in global equity securities. The portfolio manager may, in its sole discretion, review and adjust the target weighting of each asset class depending on economic and market conditions. The portfolio manager may, in its sole discretion, select the Underlying Funds, allocate assets to the Underlying Funds, change the percentage holding of any Underlying Fund, remove any Underlying Fund or add other Underlying Funds. Investments in Canadian fixed income and equity funds should not exceed approximately 45% of the net assets of the Portfolio. The Portfolio may also invest in Underlying Funds that hold shares of small cap corporations and or in Underlying Funds that hold emerging market fixed income and equity securities.

### Risks

The global investment risk of the Portfolio remains as described in the simplified prospectus or any amendments thereto and Fund Facts.

### Results of Operations

For the twelve-month period ended December 31, 2021, the Meritage Global Moderate Portfolio's Advisor Series units returned 9.06% compared to 12.31% for the Portfolio's blended benchmark. The broad-based indices, the Bloomberg Global Aggregate Index (CAD Hedged) and the Morningstar Developed Markets Large-Mid Cap Index (CAD), returned 2.41% and 29.47% respectively. Unlike the indices, the Portfolio's performance is calculated after fees and expenses. Please see the *Past Performance* section for the returns of all of the Portfolio's series, which may vary mainly because of fees and expenses.

Certain series of the Portfolio, as applicable, may make distributions at a rate determined by the manager. This rate may change from time to time. If the aggregate amount of distributions in such series exceeds the portion of net income and net realized capital gains allocated to such series, the excess will constitute a return of capital. The manager does not believe that the return of capital distributions made by such series of the Portfolio have a meaningful impact on the Portfolio's ability to implement its investment strategy or to fulfill its investment objective.

The Portfolio's net asset value dropped by 27.36% over the period, from \$48.87 million as at December 31, 2023 to \$35.50 million as at December 31, 2024.

The decline stemmed mainly from net redemptions by unitholders of the Fund.

At the beginning of 2024, a climate of cautious optimism had set in. Indeed, while 2023 had just ended with a spectacular rebound, central banks were still faced with the daunting challenge of starting to lower interest rates when inflation was not yet back on target, but several previously flawless recession indicators had already been triggered. Ultimately, optimism prevailed, with inflation continuing to slow, central banks cutting rates and the U.S. economy continuing to exceed all expectations, stock markets enjoyed a spectacular year in 2024. Bonds, for their part, had a lackluster year, posting a performance similar to that of cash.

More specifically, global equities outperformed Canadian bonds for the second year running. Market leadership was firmly in North America, with the S&P 500 and S&P/TSX posting annual returns well above their historical averages, while emerging markets and the EAFE region posted much more modest gains.

On the fixed-income side, the risk-on environment favoured Canadian corporate bonds and high-yield U.S. securities. Conversely, government securities posted more modest annual returns in Canada, but especially in the U.S. Among commodities, the price of oil ended the year virtually unchanged. In addition, the economic and political environment was very favourable for gold, with an annual gain of 27.1% exceeding that of equities. Lastly, the U.S. dollar appreciated strongly during the year, the Greenback being buoyed by the relative outperformance of the U.S. economy and threats of tariffs from the incoming Trump administration.

Given this context, the Meritage Global Moderate Portfolio underperformed its blended benchmark over the period. The AGF American Growth Fund brought the most value to the Portfolio during the period. The Manulife Strategic Income Fund contributed the least value to the Portfolio's overall return over the period.

### Recent Developments

For 2025, many investment professionals feel the most likely scenario implies that a soft landing will be confirmed in the first half of the year. While this should finally turn the page on four years of major economic disruption linked to the pandemic, investors are nonetheless faced with high valuations, a weakened economy and heightened political uncertainty with Donald Trump's return to the White House considerably muddying the waters.

## Related Party Transactions

National Bank of Canada ("the Bank") and its affiliated companies' roles and responsibilities related to the Portfolio are as follows:

### Trustee, Custodian and Registrar

Natcan Trust Company ("NTC"), an indirect wholly-owned subsidiary of the Bank, is the Portfolio's trustee. In this capacity, it is the legal owner of the Portfolio's investments.

NTC also acts as the Portfolio's custodian, registrar and transfer agent. The Manager pays NTC for its services as custodian based on the assets held by the Portfolio. In addition, a flat fee per transaction is paid to NTC. With respect to the registrar and transfer agent services for the Portfolio, a fixed annual amount is paid to NTC by the Manager.

### Agent for securities lending transactions

NTC acts as the agent for securities lending transactions acts on behalf of the Portfolio in administering securities lending transactions entered into by the Portfolio. NTC is an affiliate of the Manager.

### Manager

As described in the *Management Fees* section, the Portfolio pays annual management fees to National Bank Investments Inc. (the "Manager") in consideration for management services. The management fees cover mainly the Manager's costs of managing the Portfolio's investments. The Manager is an indirect wholly-owned subsidiary of National Bank of Canada (the "Bank").

Since October 29, 2013, the Manager pays the operating expenses of the Portfolio other than its "portfolio costs" (defined below) (the "variable operating expenses"), in exchange for the Portfolio's payment to the Manager of annual fixed-rate administration fees with respect to each series of the Portfolio.

The administration fees are equal to a specified percentage of the net asset value of each series of the Portfolio, calculated and paid in the same manner as the Portfolio's management fees. The variable operating expenses payable by the Manager include, but are not limited to: transfer agency and recordkeeping costs; custodial costs; accounting and valuation fees; audit fees and legal fees; costs of preparing and distributing financial reports, simplified prospectuses, annual information forms, fund facts, continuous disclosure material and other securityholder communications; and costs of trustee services relating to registered tax plans, as applicable.

In addition to administration fees, the Portfolio shall also pay certain portfolio costs, namely: taxes (including, but not limited to, GST/HST and income taxes); costs of compliance with any changes to existing governmental or regulatory requirements introduced after August 1, 2013; costs of compliance with any new governmental or regulatory requirements, including any new fees introduced after August 1, 2013; interest and borrowing costs; costs related to external services that were not commonly charged in the Canadian mutual fund industry as at August 1, 2013; Independent Review Committee costs, including compensation paid to IRC members, travel expenses, insurance premiums and costs associated with their continuing education; and variable operating expenses incurred outside of the normal course of business of the Meritage Portfolios.

The Manager may, from time to time and at its sole discretion, decide to absorb a portion of a series' management fees, administration fees or Portfolio costs.

### Portfolio Manager

The Manager has appointed National Bank Trust Inc. ("NBT"), a direct and indirect wholly-owned subsidiary of the Bank, as the portfolio manager for the Portfolio. A flat fee is payable annually to NBT for its management services.

### Distribution and Dealer Compensation

Portfolio securities are offered by National Bank Direct Brokerage (a division of National Bank Financial Inc., an indirect wholly owned subsidiary of the Bank), National Bank Financial Inc. and other affiliated entities. Each month, brokers receive a commission representing a percentage of the average daily value of the securities held by their clients. In addition, when Advisor Series securities are purchased, brokers usually receive a commission, which varies depending on the sales charge option chosen at the time of investment.

### Administrative and Operating Services

NBT provides the Portfolio with certain services, including accounting, reporting and portfolio valuation services. The costs incurred for these services are paid by the Manager to NBT.

### Management Fees

The Portfolio pays annual management fees to the Manager in consideration for management, portfolio advisory and administrative services and facilities required by the Portfolio in its day-to-day operations. As the Portfolio invests in underlying funds, the fees and expenses payable in connection with the management of the underlying funds are in addition to those payable by the Portfolio. However, the Manager makes sure that the Portfolio does not pay any management (or operating) fees that, to a reasonable person, would duplicate a fee payable by the underlying fund for the same service.

The management fees are calculated as a fixed percentage of the Portfolio's daily net asset value, are accrued on a daily basis and are paid monthly. The Portfolio is required to pay applicable taxes on the management fees.

Under the heading *Distribution*, expenses include the broker's compensation consisting of the maximum annual trailer fees and sales commissions paid to brokers. Under the heading *Other*, the fees relate mainly to investment management, investment advisory services, general administration and profit. The breakdown of the main services received in consideration for the management fees, as a percentage of the management fees collected from the Portfolio, is as follows:

Series	Management Fees	Distribution	Others <sup>†</sup>
Advisor Series and Series T5*			
Front-end load**	1.70%	44.12%	55.88%
Series F and Series F5	0.80%	—	100.00%

<sup>(\*)</sup> Includes all costs related to management, investment advisory services, general administration and profit.

<sup>(\*)</sup> Excluding sales commissions paid on the Advisor Series and Series T5 with the low sales charge option and deferred sales charge option, which are not included in the management fees.

<sup>(\*\*)</sup> Rate applicable for all investments, including Advisor Series existing before May 14, 2015, systematic investment programs, reinvested distributions and switches.

### Past Performance

The performance of each series of the Portfolio presented below is calculated as of December 31 of each year. It assumes that all distributions made in the periods shown were reinvested in additional securities and does not take into account sales, redemption charges, distributions, or optional charges that would have reduced returns. Past performance of a series of the Portfolio does not necessarily indicate how it will perform in the future.

### Annual Returns

The bar charts indicate the performance for each the Portfolio's series in existence greater than one year during the years shown, and illustrate how the performance has changed from year to year. They show, in percentage terms, how much an investment made on January 1 (or made commencing from the start of the series) would have grown or decreased by December 31 of that year, in the case of the Annual management report of fund performance, or by June 30, in the case of the Interim management report of fund performance.

<sup>(1)</sup> Returns for the period of March 1, 2016 (commencement of operations) to December 31, 2016.

## Annual Compounded Performance

The following table shows the Portfolio's annual compound returns for each series in existence greater than one year and for each of the periods ended on December 31, 2024, compared with the following benchmarks:

The blended benchmark (the "Benchmark") is composed of:

- Bloomberg Global Aggregate Index (CAD Hedged) (60%)
- Morningstar® Developed Markets Large-Mid Cap Index (CAD) (35%)
- Morningstar® Canada Large-Mid Index (CAD) (5%)

The broad-based indices are as follows:

- Broad-based index 1: Bloomberg Global Aggregate Index (CAD Hedged)
- Broad-based index 2: Morningstar® Developed Markets Large-Mid Cap Index (CAD)

### Meritage Global Moderate Portfolio

<sup>1</sup>Commencement of operations: March 1, 2016

A discussion of the Portfolio's relative performance in comparison to the index (or indices) can be found in the *Results of Operations* Section of this report.

## Index Descriptions

The **Bloomberg Global Aggregate Index**, hedged in CAD, is a market capitalization weighted index which is designed to measure the broad global markets for corporate, government, governmental agency, supranational, mortgage-backed and asset backed fixed income securities.

The **Morningstar® Developed Markets Large-Mid Cap Index** is a subset of large- and mid-cap stocks included in the Morningstar® Developed Markets Index, a broad-based index that represents 97% of the market capitalization of developed markets.

The **Morningstar® Canada Large-Mid Index** measures the performance of Canadian stock exchanges by targeting 90% of shares, based on their order of importance in terms of market capitalization.

## Financial Highlights

The following tables show selected key financial information about the Portfolio and are intended to help you understand the Portfolio's financial performance for the accounting periods shown.

- <sup>(1)</sup> This information is derived from the Portfolio's Annual Audited Financial Statements. The net assets per unit presented in the financial statements might differ from the net asset value calculated for fund pricing purposes. The differences are explained in the notes to the financial statements.
- <sup>(2)</sup> Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase or decrease from operations is based on the average number of units outstanding over the accounting period.
- <sup>(3)</sup> Distributions were paid in cash or reinvested in additional units of the Portfolio, or both.
- <sup>(4)</sup> The net assets are calculated in accordance with IFRS.
- <sup>(5)</sup> This information is provided as at the last day of the accounting period shown.
- <sup>(6)</sup> Management expense ratio is based on total expenses including sales taxes for the accounting period indicated (excluding commission, other portfolio transaction costs and withholding taxes) and is expressed as an annualized percentage of daily average net value during the accounting period. The management expense ratio includes, if necessary, the management expenses from its underlying funds, as described in Article 15.2 of Regulation 81-106.
- <sup>(7)</sup> The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the accounting period. The trading expense ratio includes, if necessary, the trading expenses from its underlying funds, as described in Article 15.2 of Regulation 81-106.
- <sup>(8)</sup> The portfolio's turnover rate indicates how actively the Portfolio's manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Portfolio buying and selling all of the securities in its portfolio once in the course of the accounting period. The higher a portfolio's turnover rate in an accounting period, the greater the trading costs payable by the Portfolio in the accounting period, and the greater the chance of an investor receiving taxable capital gains in the accounting period. There is not necessarily a relationship between a high turnover rate and the performance of a Portfolio.

## Summary of Investment Portfolio
